

## ***TIPS FOR ADULT LEARNERS WRITING TO STATE LEGISLATORS***

Here are some things which are important to include in a letter to your state legislator.

1. You are a resident of the legislator's district.
2. You are a registered voter (if you are).
3. You are a student at \_\_\_\_\_ (name of your adult education center or program).
4. Why being in this program is important to you; why you believe adult education programs are important.
5. If you had to wait to get into this program, tell how long you waited.
6. Ask your legislator to maintain funding for adult basic education so more adults like you can learn to read and write better, learn to speak English better or study for their high school diploma.
